ingredients and benefits:

Cyclopentasiloxane, Ethylhexyl Cocoate, Dimethiconol, Glycine Soja (Soybean) Oil, Retinol, Phospholipids, Glycolipids, Glycine Soja (Soybean) Sterols, Lecithin, Phenoxyethanol.

- Retinol is the number one dermatologist-recommended ingredient for aging and UV-damaged skin for softening wrinkles. It reverses the signs of skin aging. Packed with anti-aging benefits it stimulates production of new skin cells, It helps fades dark spots resulting from photo-aging, hyperpigmentation, hormonal changes, and blemish scars.
- 0.5% Retinol: the #1 dermatologist-recommended ingredient for aging and UV-damaged skin. It helps improve visible signs of aging, such as lines and wrinkles, irregular pigmentation, loss of elasticity and enlarged pores.
- Phospholipids and Glycolipids: found in the uppermost layer of the skin (stratum corneum), lipids keep the skin's moisture content and barrier function to keep it from dryness and irritation.
- Soybean oil (glycine soja): A vitamin-rich emollient that absorbs well into the skin. Nourishes, softens and moisturizes, soy helps diminish wrinkles, reverse sun damage and even tighten sagging skin.

Manufactured for Mirapelle, Made in U.S.A.

Retinyl is the ester of Retinol (Vitamin A) and it is combined with Palmitic Acid, a major component of palm oil, easily absorbed by the skin and once it is there is converted into Retinol

Phospholipids come from soya beans and from eggs

Glycolipids are commonly found in plant leaves and algae. They contain a high proportion of polyunsaturated fatty acids
