

PURE ESSENCE BIOPLACENTA

Growth Factors | Neuropeptides | Oligo Elements
Lift Sagging skin naturally.

"A Single, Smarter Solution to Anti-Aging" Pure Essence Bio-Placenta Serum is a completely new level in anti-aging. It delivers an innovative combination of five unique peptides as growth factors, neuropeptides, and oligo elements in one revolutionary product.

"These are molecularly identical to the life-giving growth factors found in the human placenta", considered to be the cutting edge of skincare formulation. These biomimetic cell-signaling peptides or growth factors combat the signs of aging by boosting regeneration, collagen production, and reinforcing capillaries and circulation.

1 oz./30 ml. \$75.00

benefits:

- Helps restore a youthful structure, strength and glow.
- Boosts skin regeneration and Increase collagen production.
- Improves skin moisturization by 83% (*studies based on the raw material from Damy Chemical Co. Ltd*).
- Reinforce capillaries and circulation.
- Supports thin, fragile skin.
- Helps in Skin rejuvenation and cell vitalization.
- Helps minimize the appearance of expression lines and wrinkles.
- Increases elasticity, regenerates, firms, and provides nutrition for healthy skin.
- Specially work for sagging skin.

direction and use:

- Apply twice daily to clean dry skin morning and evening.
- Place 2 pumps on the palm of the hand and apply on face and neck in an upward motion.
-

ingredients and benefits:

Lecithin, sh-Oligopeptide-1, sh-Oligopeptide-2, sh-Polypeptide-1, sh-Polypeptide-9, sh-Polypeptide-11, 3-Aminopropane Sulfonic Acid, Calcium, Hydroxymethionine, Acetyl Hexapeptide30, Acetyl Hexapeptide-8, 2-Hexanediol, Arginine, Hydroxyethylcellulose

- **Growth Factors:** Boosts regeneration, collagen production, reinforce capillaries, and circulation.
- **Neuropeptides:** Disrupts communication to prevent and smooth expression lines, can prolong the effects of BoNT-A injections.
- **Oligo Elements:** Helps to maintain enzyme reactions, strengthens tissue structure, and supports skins anti-oxidant capabilities.
- **Lecithin:** From soybeans: as genistein, a soy isoflavones brighten the skin, decrease redness, boost collagen production and improve skin tone.
- **Sh polypeptide 9:** Growth factors (GF) and cytokines are synthetic large hydrophilic human proteins naturally occurring in the skin that stimulate cellular growth and proliferation.
- **sh-Oligopeptide-1:** An Epidermal Growth Factor (EGF), made in the USA. It is a powerful protein that binds to cell receptors that activates, accelerates cellular proliferation. It also accelerates and promotes skin healing, increases the rate of skin renewal, and slows down skin thinning.
- These five growth factors are considered to be the cutting edge of skincare formulation, and are defined as the Epidermal Growth Factor (EGF) to promote regeneration, Insulin-like Growth Factor (IGF-1) to support anti-wrinkle Acidic Fibroblast Growth Factor (AFGF) to help firm. Basic Fibroblast Growth Factor (BFGF) to increase elasticity, and Vaso-Endothelial Growth Factor (VEGF) to provide nutrition.

The Formula and Technology of Bio Placenta

Pseudo-placenta with synergic effects and safety! Combination of five growth factors (EGF, IGF-1, acidic FGF, basic FGF and VEGF), amino acid and vitamin to give similar effect of human placenta

Within the Bio-Placenta Rejuvenating Serum formula, technologically advanced ingredients work synergistically to activate skin to function as it did in its youth. This multifaceted super serum helps minimize the appearance of expression lines and wrinkles, supports thin, fragile skin and increases elasticity as it regenerates, and restructures. With regular use, it also works to firm, fortify, and re-densify, while providing nutrition by delivering vital support for healthy skin.

Manufactured For Mirapelle, Made in U.S.A.
