

COLLAGEN COMPLEX AGE RECOVERY CREAM

WITH DUAL PEPTIDES (MATRIXYL 3000), DERMAXYL, GREEN TEA
AND RESVERATROL

Recover, revitalize and Reveal your youthful glow.

Hydrolized Marine collagen, Matrixyl 3000, Dermaxyl, green tea, resveratrol and phytic acid make up this unique age reversing formulation. It accelerates collagen and elastin production and restore skin's youthful appearance. It prevents degradation of existing collagen. It stimulates the regeneration of healthy skin cells and improves appearance of skin's overall texture.

1fl.oz. / 30ml \$65.00

benefits:

- Hydrolized marine collagen; hydrates, firms and rejuvenates.
- Peptides matrixyl and demaxyl; stimulate collagen and elastin production.
- DMAE helps to tighten skin and reduce sagging, improve firmness and elasticity, smooth lines and wrinkles, brighten the skin.
- DMAE also enhance the effects of antioxidants, best used in combination with Vitamins A, E, and C.
- Dmae also increases Collagen type 1 and 11.
- Resveratrol, Vitamin A & C are powerful antioxidants that fight free radical damage.
- Phytic acid; lightens and brightens skin.

direction: daily application

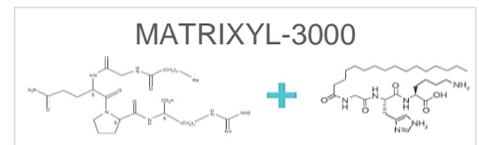

- After cleansing, apply generously to face and neck morning and evening after application of your favorite serum or you can combine it with other moisturizer.
- recommended for all skin type

ingredients and benefits:

Purified Water, Propylene Glycol, Paraffinum Liquidum, Stearic Acid, Cetyl Alcohol, Hydrolyzed Marine Collagen, Cetareth 20, Dimethyl MEA, Palmitoyl Oligopeptide, Palmitoyl Tripeptide-7, Silanetriol, Glutamylamidoethyl Imidazole, Fructose Oligosaccharides, Hydroxypropyl Methylcellulose, Porphyrin Cruentum Extract, Magnesium Aluminum Silicate, Polysorbate 20, Triethanolamine, Resveratrol, Phenoxyethanol, Methylparaben, Propylparaben, Fragrance (Parfum), Inositol, Phytic Acid, Ascorbic Acid (Vitamin C), Retinol Palmitate (Vitamin A Palmitate).

- Dermaxyl, (also known as palmitoyl pentapeptide) an engineered amino-peptide when added to a culture of skin cells), stimulates collagen, elastin and glucosaminoglycans production.
- Matrixyl 3000 is a new dual peptides, palmitoyl -tripeptide and palmitoyl-oligopeptide. They work synergistically to stimulate collagen synthesis and skin repair.
- Palmitoyl Tetrapeptide-7 is a synthetic peptide with four amino acids that prevents glycation damage. Helps promote collagen and elastin.
- Resveratrol, a natural antioxidant from red wine and cocoa, The ester form of resveratrol called resveratryl acetate can smooth lines and wrinkles.
- Phytic acid is an ester of inositol, also known as phytate, a natural plant antioxidant found primarily in bran, cereal seeds, and fruit seeds as a skin lightening ingredient.
- Green tea extract is naturally rich in antioxidants, which has a cell-protecting function, protects the skin from free radical damage. It helps inhibit collagenase, Clinical studies show more elastic skin tissue content after continuous use.

Manufactured for Mirapelle, Made in U.S.A.

A combination of palmitoyl-tripeptide and palmitoyl-oligopeptide

Hydrolyzed Marine Collagen helps with skin rejuvenation, hydration and firmness

Grapes, highest source of resveratrol

Phytic acid basically works by blocking the entrance of iron and copper in the formation of melanin

Green tea extract can actually decrease wrinkles and also makes you look younger and possibly slow down skin aging.
